Vehicle Reports

We will have two types of vehicle appraisal depending on the age of vehicle and mileage.

Each car will have a MAG Inspection Check.

Main Dealer Appraisal

What does it cover?

- Exterior images of vehicle
- Interior images of vehicle
- Dashboard images
- Major damage or missing parts images

A complaint will only be heard if it's within the 72 hour time frame. If the damage is deemed to be within fair wear and tear for that age and mileage a claim would not be processed.

Full Costing Appraisal

What does it cover?

- NAMA graded appraisal
- Exterior images of vehicle
- Interior images of vehicle
- Dashboard images
- Damage images with costing

A complaint will only be heard if it's within the 72 hour time frame. Compensation will only be considered if the misdescription results in a grade change under the NAMA inspection guidelines.

MAG Inspection Check

What does it cover?

- Engine
- Transmission
- Steering
- Warning Lights
- In-Car Entertainment

This is a static check, no road test is carried out and is for guide purposes only.
